Profile

Computer science student passionate about web and mobile development. I'm used to working with clients to create projects tailored to their needs. I'm looking to hone my skills in a business setting through a formative internship.

Skills

Technical Skills:

- Languages: C#, JavaScript, TypeScript, Kotlin, SQL
- Frameworks: ASP.NET, Angular, NodeJS, Flutter
- Tools: Docker, Git, Suite Office
- Development: web, mobile, database

Soft Skills:

- Bilingual (FR/EN)
- Agile methodology
- Teamwork and collaboration
- Effective communication
- Conflict management

My personal projects are available at hugolevacher.com.

Professional experiences

Co-Founder & Developer • Studio Synocti (2025-Present)

- Co-founded a web development company offering customized solutions for clients.
- Developed modern, mobile-friendly websites tailored to client needs.
- Managed projects, client relationships, and technical deliverables.

Coach/summer camp monitor • Club de judo Boucherville (2018-2023)

- Supervise and coach groups of children, fostering their personal and athletic development.
- Resolve conflicts and establish a climate of respect and inclusion among participants.
- Promote sportsmanship, discipline, and respect for rules through structured activities.

Education

- **Computer Science**, programming profile: CÉGEP Édouard-Montpetit (2023-2026)
- **Sport-Études program**, Natural Science program: École secondaire de Mortagne (2018-2023)
- Objective: Bachelor's degree in software engineering: ÉTS Montréal

Accomplishments

- **2024 Desjardins Scholarship Award** for youth involvement in sports.
- Judo black belt since June 2023.
- Successful completion of the 2023 Explore program: 5 weeks in Victoria, British Columbia, in English immersion.
- **Canadian Vice-Champion** at the 2022 Canadian Judo Championships.
- Excellence scholarship for four subjects in Secondary 5.
